Response to Amendment

1. This action is responsive to amendment received on 5/10/2006. Examiner notes that no agreement to help expedite the allowance could reach during Examiner initiated telephonic interviews.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1, 61-78 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The amended claim 1 and claims 74-78 (e.g., claim 74, lines 11-13, claim 75, 12-14, etc.) contain subject matter "to adjust the meaning of feedback sent in an uplink direction accordingly to correspond to a resulting less than the plurality of data streams prior to a resulting non-MIMO transmission" is not clearly defined in the Specification.

Art Unit: 2616

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 61-78 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. "to adjust the meaning of feedback" is not clear, and, lacks antecedent basis.

Appropriate action is requested.
